Funeral Convoy Attacked, Widow, Orphan Slain, Mourners Abducted

The Bamenda/Ekok stretch of road has remained a very dangerous axis for commuters who still take the risk to ply the road.

Momo Division is one of the crisis ridden in the Northwest Region given

that armed men have virtually taken control with cases of kidnappings and killings abound. The latest mayhem on that road was hostage taking of a funeral convoy.

Sources on the ground say a funeral convoy moving to bury one principal was reportedly attacked by

yet to be identified gunmen in Widdikum in which both the widow and the deceased son were killed and some mourners abducted and valuables including phones and money seized by the gunmen. As of now the Rapid Intervention Battalion

forces have invaded the area on a man hunt for the gunmen.

A lady traveler who was coming up from Mamfe with her family narrated how she bumped into the unformatted scenario just a few kilometers drive from Widdikum.
